

School Roof Project – July 19, 2024.

After an extensive process, we will begin replacing the roof on the southern part of the west side of the school building, which has the worst damage. Other areas will be patched for now and addressed in the future. The goal is to replace the entire school roof in four phases.

We worked with several proposals from roofing contractors and involved the Archdiocese of Chicago's Planning and Construction Office to determine the best way to address the school's roof. We have also involved our Finance Council and recently formed a School Roof Committee composed of:

Rev. Elmer Romero, Pastor
Michael Burns, School Board President
Michael Eardley, Member of the Parish Pastoral Council
Rev. Alex Garcia, Associate Pastor
Monica Herron, Chairperson of the Parish Pastoral Council
Kieran Kelliher, School Parent
Greg Porod, School Principal
John Vincent, Member of the Parish Finance Council
Emily Wasik, School Parent

Next week, the materials needed will be delivered. Work is expected to begin on July 25 (Thursday).

At this point, it is estimated that this job will take two weeks. Our goal is to have the school building ready with all exterior and interior improvements by the time the teachers return on August 13th.

If you have any questions about this project, please feel free to contact me.

Thank you for your support and collaboration in this matter.

Sincerely in Christ,
Deacon Franco
Operations Director
